### OPENING (2 minutes)

---

“Good [morning/afternoon/evening], and thank you for taking the time to learn about an extraordinary opportunity that combines cutting-edge technology, financial trading, cybersecurity, and healthcare benefits into a comprehensive wealth-building system.

My name is [YOUR NAME], and I’m a certified agent with Pak Won E, a revolutionary platform that doesn’t just offer ONE way to make money—it offers FOUR distinct income streams that you can leverage simultaneously or individually.

Today, I’m going to show you how you can generate income through:

1. **Building a network** of traders and agents
2. **Trading forex** with our proprietary AI-powered system
3. **Selling quantum cybersecurity** to Fortune 500 companies and institutions
4. **Enrolling businesses** in our Employers Health Plan

Let’s dive in.”

---

### INCOME STREAM #1: RECRUITING & NETWORK BUILDING (4 minutes)

---

#### The Power of Leverage

“The first income stream is what I call ‘Income While You Sleep.’ This is where you build a network of traders and agents, and you earn commissions on their subscriptions and their network growth.

#### How It Works

##### Three-Level Commission Structure:

- **Level 1 (Direct Referrals):** You earn **30% commission** on every person you personally recruit
- **Level 2 (Your Team’s Referrals):** You earn **15% commission** on everyone your direct recruits bring in
- **Level 3 (Team’s Team Referrals):** You earn **5% commission** on the third level

## Real Numbers Example

Let me show you what this looks like in real dollars:

### Scenario 1: Small Start

- You recruit 10 people at \$197/month subscription
- Direct income:  $10 \times \$197 \times 30\% = \mathbf{\$591/month}$
- They each recruit 5 people:  $50 \times \$197 \times 15\% = \mathbf{\$1,477.50/month}$
- Those recruit 3 each:  $150 \times \$197 \times 5\% = \mathbf{\$1,477.50/month}$
- **Total Monthly Recurring Income: \$3,546**

### Scenario 2: Serious Builder

- You recruit 50 people at \$197/month
- Direct income:  $50 \times \$197 \times 30\% = \mathbf{\$2,955/month}$
- They each recruit 10:  $500 \times \$197 \times 15\% = \mathbf{\$14,775/month}$
- Third level recruits 5 each:  $2,500 \times \$197 \times 5\% = \mathbf{\$24,625/month}$
- **Total Monthly Recurring Income: \$42,355**

## Token System Bonuses

On top of commissions, we have a token reward system:

- **New subscriber recruitment:** 100 tokens (worth \$10)
- **Agent referral:** 500 tokens (worth \$50)
- **Tokens accumulate** and can be redeemed for cash or used for premium features

## The Beautiful Part

This is **residual income**. Once you build your network, you continue earning month after month as long as they remain active subscribers. You're building an asset that pays you repeatedly for work you did once."

## INCOME STREAM #2: FOREX TRADING WITH PAK WON E (4 minutes)

## INCOME STREAM #3: QUANTUM CYBER SECURITY (QTA) SALES (4 minutes)

### The Trillion-Dollar Problem

"Now we move into enterprise sales—this is where the BIG commissions come in.

Cybersecurity threats cost businesses **\$8 trillion globally** in 2023. Every hospital, corporation, financial institution, and government agency is desperate for better security solutions.

## What is QTA (Quantum Transceiver Antenna)?

QTA represents the next generation of secure communications:

- **Peer-to-peer quantum network** (no cell towers, no satellites)
- **Unhackable transmissions** using quantum entanglement
- **Instant global connectivity** device-to-device
- **Military-grade encryption** for sensitive data

## Who Needs This?

### High-Value Targets:

1. **Hospitals & Healthcare Systems** – HIPAA compliance, patient data protection
2. **Financial Institutions** – Transaction security, fraud prevention
3. **Legal Firms** – Attorney-client privilege protection
4. **Government Agencies** – Classified communications
5. **Fortune 500 Corporations** – Trade secrets, intellectual property
6. **Manufacturing** – Industrial espionage prevention

## Pricing & Commission Structure

### QTA System Pricing (Example):

- Small business deployment: \$50,000 - \$100,000
- Mid-size enterprise: \$250,000 - \$500,000
- Large institution: \$1,000,000 - \$5,000,000+

**Agent Commission: 10-15% of contract value**

## Real Income Examples

### Scenario 1: Small Wins

- Close 2 small businesses per quarter at \$75,000 each
- Commission:  $\$150,000 \times 10\% = \mathbf{\$15,000 \text{ per quarter}}$
- Annual income: **\$60,000**

### Scenario 2: Mid-Market Focus

- Close 1 hospital system at \$750,000
- Close 2 law firms at \$200,000 each
- Total sales: \$1,150,000
- Commission at 12%: **\$138,000 per year**

## The Support You Get

You're not alone in this:

- **Professional presentation materials** and demos
- **Technical support team** for client questions
- **Proof-of-concept demonstrations** available
- **Contract templates** and legal support
- **Lead generation assistance**

One enterprise deal can change your entire year. This is where agents have made **six figures from a single sale.**"

---

## **INCOME STREAM #4: EMPLOYERS HEALTH PLAN (EHP) (4 minutes)**

---

### **The Healthcare Crisis Opportunity**

“The fourth income stream addresses one of America’s biggest problems: affordable healthcare for employees.

#### **The Problem:**

- Average employer healthcare cost: **\$22,000+ per employee annually**
- Small businesses can’t afford traditional insurance
- 33 million Americans are uninsured
- Prescription drug costs are skyrocketing

#### **The Solution: Employers Health Plan (EHP)**

### **What is EHP?**

A comprehensive health and pharmaceutical benefit program that costs employers **a fraction** of traditional insurance:

#### **Benefits Include:**

- Prescription drug discounts (up to 80% savings)
- Telemedicine access (24/7 doctor consultations)
- Dental and vision plans
- Mental health support
- Wellness programs
- Hospital advocacy services

**Cost to Employer:** Starting at \$25-\$40 per employee/month

### **Agent Commission Structure (8 Tiers)**

This is beautiful in its simplicity—you earn per subscriber, and commissions increase with volume:

Tier	Subscribers	Commission/Sub- subscriber	Example Monthly Income
1	1-25	\$1.00	\$25
2	26-50	\$2.00	\$100
3	51-100	\$3.00	\$300
4	101-250	\$4.00	\$1,000
5	251-500	\$5.00	\$2,500
6	501-1,000	\$6.00	\$6,000
7	1,001-2,500	\$7.00	\$17,500
8	2,500+	\$8.00	\$20,000+

## Real-World Scenarios

### Scenario 1: Small Business Focus

- Sign up 10 small businesses with average 15 employees each
- Total subscribers: 150
- Tier 3 commission:  $150 \times \$3 = \mathbf{\$450/month}$
- Annual recurring: **\$5,400**

### Scenario 2: Mid-Market Strategy

- Sign 5 companies with 50-75 employees each
- Total subscribers: 325
- Tier 5 commission:  $325 \times \$5 = \mathbf{\$1,625/month}$
- Annual recurring: **\$19,500**

### Scenario 3: Enterprise Game Changer

- Sign 1 large company with 1,200 employees
- Tier 7 commission:  $1,200 \times \$7 = \mathbf{\$8,400/month}$
- Annual recurring: **\$100,800**

## The Incredible Income Calculator

We've built a tool that shows employers exactly how much they'll save AND shows you your commission in real-time.

### Example Presentation to Business Owner:

- "Mr. Smith, you have 50 employees. You're currently paying \$22,000 per employee for healthcare—that's **\$1.1 million per year**.
- With EHP at \$35/employee/month, your cost is **\$21,000 per year**.
- You save **\$1,079,000 annually**.
- Your employees get better prescription benefits.
- And it takes me 20 minutes to enroll your company."

**Business owner:** "Where do I sign?"

**You:** Earn \$100/month residual income from that one conversation

## Why This Works

1. **Recurring revenue** – Monthly commissions as long as employees are enrolled
2. **Easy sale** – You're saving businesses massive amounts of money
3. **Scalable** – One large employer = years of income
4. **Referral machine** – Happy employers refer other businesses
5. **Ethical & impactful** – You're helping employees access healthcare

The EHP program turns you into a benefits consultant with residual income.”

## Final Thought

“Ten years from now, you’ll wish you had started today. The forex market isn’t going anywhere. Cyber-security needs are growing exponentially. Healthcare is always in demand. And people will always need financial opportunity.

The question isn’t whether these income streams work—the question is: Are YOU ready to put in the work to make them work for you?

I started [X months/years] ago, and today I’m earning [YOUR INCOME]. If I can do it, so can you.

Who’s ready to get started?”

## Q&A PREPARATION

### Common Questions & Answers

**Q: “Do I need forex trading experience?”**

A: No. Our AI assistant and educational library teach you everything. Many successful agents started with zero trading knowledge.

**Q: “How long before I make money?”**

A: Recruiting commissions start immediately. Trading profits depend on your learning curve and capital. EHP sales can close in days. QTA sales take 3-6 months typically.

**Q: “Is this legal/legitimate?”**

A: Absolutely. We’re a registered platform with proper licensing. Our agents are independent contractors, not employees.

**Q: “What if I can’t recruit anyone?”**

A: Then focus on the other three streams. You can make six figures just trading or just selling EHP/QTA.

**Q: “How much time does this require?”**

A: As much or as little as you want. Part-time agents earn \$2,000-5,000/month. Full-time agents earn \$10,000-50,000+/month.

**Q: “What’s the catch?”**

A: There’s no catch. This is a business. You invest \$197/month. You put in effort. You get results. If you don’t work it, you don’t earn.
