

Alright, so you're asking about how the Pak_Won_E Network agents get paid, kind of like a bonus program! Here's the rundown, keeping it simple and easy to understand:

How You Can Make Money

There are two main ways agents earn cash:

- **Leverage Fee Bonus (Direct Sign-ups):**

- This is like a commission you get when someone *you* personally bring into the Pak_Won_E Network signs up.
- The more advanced your own agent level, the higher percentage of their initial fee you'll get.
- For example, if you're at the top "Executive" level, you could get 50% of the fee from someone you sign up – that's a quick, immediate bonus!

- **Team Production Bonus (Monthly Income):**

- You can earn money every month based on what your whole team (or "groups" of agents) sells.
- As your team grows and brings in more people and business, you get a percentage of their total sales.
- The potential here is pretty big; some sources even suggest earning millions per month if your groups really take off.

The Agent Levels (Tiers)

Think of these as different "ranks" in the Pak_Won_E Network. Each level has a cost to join and offers different earning percentages:
